Some of the Uses of the Pine Tree.
A Paris correspondent to the *Chemical News*, writes thus: "We are glad to hear that M. H. Schmidt Missler's products of the pine tree, forest, wool and other substances are at present in active development in Paris. Let us enumerate them rapidly.

Vegetable Wadding.—This preparation preserves all the properties of the pine; it evolves an aroma eminently wholesome. Dr. Schilbach recommends it as a most harmless but efficacious remedy in cases of catarrh, bronchitis, asthma, sore throat, &c.

Raw Vegetable Wool.—One-half cheaper than ordinary wool mattresses. Those stuffed with this wool do not attract humidity; its odor and the ozone due to its resinous principles keep off or kill the insects.

Schmidt & Missler's Flannel.—By reason of the resin, the tannin, and the Formic acid it contains, it aids the exercise of the important functions of respiratcon, absorption and perspiration, in a greater degree than ordinary flannel.

Ethnated Pine Oil.—Employed in friction has given unexpected results; in the first commencement of paralysis and apoplexy, in cases of recent burns, &c. Some German doctors recommend a few drops in sugar and water to be administered internally as a remedy against cramps in the stomach, worms in children, neuralgia, dropsy, &c.

There are also the *Solid, Extract of Larceo of the Maritime Pine*, the *Pine Spirit* and *Pine Soap*. All these different products are most simple but very valuable acquisitions

Dr. George W. Swett, of Boston, however, has brought into shape for convenient use, a most valuable preparation called POLAND'S WHITE PINE COMPOUND, which for a number of years, has given great satisfaction in the cure of all these ailments dependent on an inflamed or irritated condition of the mucous membranes of the animal organism. For *bronchitis, dropsy, chronic bronchitis, nasal catarrh, consumption*, when depending on a debilitated state of the intestines, it is one of the most valuable discoveries recently added to pharmaceutical medicine. It is likewise a most valuable compound for diseases of the kidneys and bladder generally, as any one can satisfy himself upon a single trial. Every one knows the healing virtues of the white pine for sores and ulcers, but Dr. Sweet has gone to work and prepared from the sweet inside bark of that noble tree, a compound that will meet every indication where the pine would be valuable. Ask for POLAND'S WHITE PINE COMPOUND. For sale by the gross, dozen, or single bottle, at Dr. Keyser's great medicine store, 140 Wood street.

The Fenians had a very large and enthusiastic meeting last night. Resolutions were adopted, pledging assistance of men and means, to the present movement in Ireland, demanding of our government the immediate recognition of Fenians as belligerent rights to the Irish Republic, and calling on wealthy Irishmen of this country to purchase privateers to prey on English commerce.

It is expected that Gov. Butler will soon convene the Nebraska Legislature, and issue proclamation to put the State Government in working order.

A number of bridges and considerable other property was destroyed by the late flood in Nebraska.

FROM MEXICO.

City Occupied by Liberals—Imperial Reign at an End.

SAN FRANCISCO, March 12.—The Mexican Council has information, derived from the Secretary of the Government at Mazatlan, that the City of Mexico was occupied by the Liberals, February 17th. The President, Cabinet and suite were at Queriaro, the same date, three days on their journey to the capital. The report that Ortega was shot by order of Juarez, is untrue. Joaquin Miramon, brother of the Imperial General, was taken near Zacatecas and shot as a traitor. In the last engagement with Miramon one hundred and fifty Frenchmen, captured by Escobedo, having left the service of France to join the Imperial cause, were ordered to be shot at San Jacinto City. Herelia was evacuated by the Imperialists and occupied by the Liberals under Gen. Bedelio. The fall of Morelia left no garrisoned place by the Imperialists in all Mexico.

FORTIETH CONGRESS.

(FIRST SESSION.)

WASHINGTON, March 12, 1867.

SENATE.

ARMS FOR TENNESSEE.

Mr. WILSON, from the Military Committee, reported back the resolution declaring that "Whereas, arms and equipments for the militia for the State of Tennessee were taken and destroyed by the rebel authorities during the late rebellion, and the present Executive of that State, in order to enforce the laws of that State, deems it necessary to employ militia; therefore, the Secretary of War is authorized and directed to furnish arms and equipments for 25,000 militia to the Governor of Tennessee."

Mr. WILSON asked immediate consideration.

Mr. JOHNSON objected, and the resolution went over.

FRENCH SPOLIATIONS, &c.

Mr. SUMNER, from the Committee on Foreign Affairs, reported back the bill in regard to the French spoliation claims, and a bill to provide for the defense of the Northern frontier, with favorable recommendation in each case.

IRISH PEOPLE AND THE UNITED STATES.

Mr. NYE introduced a preamble and resolution declaring the sympathy of the United States with the Irish people in their struggle against British oppression, and asked immediate consideration.

Mr. SUMNER objected, and the resolution went over.

RESOLUTIONS INTRODUCED.

Mr. POMEROY, from the Committee on Public Lands, reported a resolution relinquishing the title of the United States to a certain public square in the city of Burlington, Iowa. Passed.

Mr. SAULSBURY introduced a resolution directing the Secretary of War to return to the armories and arsenals of Delaware certain arms and equipments belonging to the State taken by the Government during the rebellion. Referred to Military Committee.

Mr. TRUMBULL introduced a joint resolution to make valid certain laws of the Legislature of New Mexico, passed in 1866. Referred to Judiciary Committee.

Mr. JORDAN introduced a joint resolution for the survey of a ship canal from Lake Erie to Lake Ontario, for military, naval and commercial purposes. Referred to Committee on Surveys.

Mr. COLE introduced a bill to enable California to restore certain unproductive lands within her limits; also a bill to grant land to California for the construction of a canal for irrigating purposes. Referred to the Committee on Public Lands.

FURTHER GUARANTEE RESOLUTIONS.

Mr. MORTON, (Indiana,) moved the Senate take up the resolutions of Mr. Sumner, which were yesterday laid over informally. He said he voted against laying the resolutions on the table, because he was unwilling to record himself in that way. He dissented entirely from the doctrine expressed by certain gentlemen that the act of the 22d of March was a pledge. It could not be regarded in the light of a contract, for that takes two parties, one to propose and one to accept, consequently it is entirely competent for Congress to alter, modify or repeal that bill without dishonor or breach of faith. There was much in the resolutions which he could not approve, but he did approve most heartily of the principle of the rebel States. He contended that could be no Republican form of government in the South unless whites and blacks were alike admitted to the benefits of common schools; that there was a right to grant suffrage to the blacks, is that the right to provide that they shall be qualified by education for the exercise of the franchise. It was due to the whole country that this should be done. Regarding the status of the rebel States, he should always hold that Congress had full jurisdiction over them as States since their act of the rebellion, and under this power could do what it was now proposing to do, reducing them to territories.

Mr. HOWE thanked Mr. Morton for so bringing the resolutions before the Senate. He voted yesterday against laying on the table and found himself compelled to do so without giving a direct vote. He proceeded to address the Senate on the subject of the resolutions, prefacing his remarks with the assertion of the control of Congress over the subject by the Constitution. He regarded the provision on the subject of education as more important than any other. He did not think it could be controverted. He assented to the proposition that a homestead was necessary for freedmen, as was now proposed to say this could not be obtained under the existing homestead law.

ANOTHER RECONSTRUCTION BILL.

MR. TRUMBULL moved the Senate take the supplementary Reconstruction bill. It was taken up and referred to the Committee on Judiciary.

PASSAGE BETWEEN SUMPTER AND FESSENDEN.

MR. TRUMBULL moved an Executive Session.

MR. SUMNER was opposed, and there was a sharp and stinging debate between FESSENDEN. Mr. Sumner finally saying he would not proceed with his remarks just now, but when the Supplementary Reconstruction bill came up he would move to amend it by providing that Education shall be secured to all alike in the Rebel States, and only that he should address his females.

PROPERTY LOST IN MILITARY SERVICE.

Mr. WILLIAMS introduced a joint resolution defining the meaning of the second section of the act of March, 1865, relative to property lost in the military service to be that whenever any claimant shall comply with all the terms of the act on the subject of property lost in value shall be ascertained, the amount of awards made by the Commissioners who audited the claim. Referred.

REPEALING CHARTERS.

Mr. MORRILL reintroduced the bill of last session repealing the charters of the United States Bank and State Banks, and providing for the government of the same by a Board of Commissioners, &c. Referred.

PAYMENT OF BOUNTIES.

Mr. WILSON introduced a joint resolution providing that there be transferred from the Treasury for the settlement of claims for pay, bounty, &c., due to soldiers or sailors who may have resided in the late slave States, the claim for which having been presented by an agent or attorney shall be made payable to the commissioner of freedmen, subject to payment upon identification of claimant, the commissioner first paying lawful fees and expenses to the attorney. Referred.

The Senate went into Executive Session and soon after adjourned.

HOUSE OF REPRESENTATIVES.

PERSONAL EXPLANATION.

Mr. WOODBRIDGE made a personal explanation in regard to some remarks yesterday in reference to claims of the heirs of John Bontigny, disclaiming any desire to be discourteous to any gentleman.

Mr. WASHBURN did not suppose the gentleman intended to attribute to him the intention of introducing matter containing a falsehood, although he confessed the language used seemed to him, at the time, most discourteous. He disapproved the claim as utterly groundless and fraudulent.

After discussion the matter was dropped.

EXPENSE OF RECONSTRUCTION.

Mr. STEVENS introduced a joint resolution providing for the expense of carrying into full effect the act of the 2d of March for the more efficient government of the rebel States and all supplementary acts, the bills being specified. He moved to limit the amount to $50,000,000. Agreed to, and the resolution, as amended, passed.

TO CLOTHE DISABLED SOLDIERS.

Mr. BLAIR, from the Select Committee, reported a bill directing the Secretary of War, to furnish annually one complete suit of clothing to each wounded soldier, who is an inmate of any National Asylum for disabled soldiers' home, or private institution as well as public. The bill was passed.

CHICAGO, March 12.—*To J. J. Geary, New York:* Your dispatch received. Do I understand you that the representatives of the I. R. B. from Ireland, England and Scotland, now in America, agree to unite with us for the purpose of giving aid to the men said to be in revolution in Ireland? If so, as President of the Fenian Brotherhood, and speaking on behalf of that organization, while holding ourselves irresponsible for the results of what I fear is a premature and ill prepared movement, nevertheless we will render all the aid in our power to our brothers in the field. Our objective point is Ireland. We labor for Ireland, and will strike for Ireland.

Kelton, is hereby charged with the commission of crime and offence against citizens, refugees or freedmen. The Irish Insurrection.

NEW YORK, March 12.—The *Herald's* Athlow, Ireland, correspondence, of the 28th ult., contains matter which goes to prove that the Fenian insurrection in that country forms part of a revolutionary movement which is daily becoming more important in Great Britain, and in which the Irish military organizations act according to a very well defined plan previously agreed upon, disputing the last rising by many days, he states the very day on which it occurred, and sketches pretty freely the coming operations, such as the destruction of the telegraphs and railroads, and respecting the safety of the Atlantic Cable on account of the defenceless state of the coast at Chester, he says, officers left their hiding places. Ammunition was being collected in convenient magazines, and thousands of young men prepared to leave their homes to participate in a struggle. At the same time 2,000 stalwart men in the workshops in Manchester, Liverpool, Sheffield and Birmingham, threw down their tools and started for Chester, where was situated an antiquated castle, in which were stored 35,000 stand of arms and a very large quantity of ammunition, guarded by about forty infantry of very doubtful loyalty. The men arrived in Chester and the Government was terribly frightened. Just at this moment, Fenian prisoners having been deposed, an energetic officer appointed to direct the movement arrived in England, and learning the condition of affairs, immediately sent telegrams to Chester with orders to prevent an attack on the place. He arrived just in time. Troops were sent in from Ireland to quell the movement, and they all were successful except in Kerry, which was not reached in time. The correspondent further says—"I can prepare to be astonished, and the result will show the correctness of the assertion, that in several counties of Ireland every able bodied man, except some priests, all the parishioners, soldiers, police, landlords, and others dependent on Government, readily join the insurgents or give them aid. The principal officer in command of the Fenians was an officer in the English army, and lately of the American rebel army. There are others of like standing."

Efforts are being made in New York by the Fenians to raise money enough to set afloat a fleet of Fenian privateers.

The New Hampshire Election—Harriman Elected Governor

CONCORD, N. H., March 12.—Returns from one hundred and twenty-six towns give Harriman 20,480 and Sinclair 17,433 votes. The majority for General Harriman will be about 3,000 in the whole State. The Republicans have elected three Congressmen by majorities of about 1,000 each. This will probably elect nine of twelve State Senators, four of the Councilors, and have 75 majority in the House. The result is more favorable to the Republicans than was generally expected.

LATER INTELLIGENCE.

CONCORD, N. H., March 12.—Returns from one hundred and twenty-six towns give Harriman 25,067 votes and Sinclair and all others 23,462 votes.

Ela, in the First Congressional District, is probably elected by 1,200 majority, and Stevens, in the 2d, and Bentun, in the 3d District, by about 1,000 majority each.

In the Senate 8 Republicans and 4 Democrats are probably elected. In the House there is a Republican majority of 80. The Republicans have a majority in six counties and the Democrats in four counties.

The vote in the State will exceed that of last year 1,500 to 2,000. The majority for Harriman will probably exceed 3,000.

Massachusetts Legislature—Proposed Amendment to the Constitution.

BOSTON, March 12.—In the House of Representatives, this afternoon, the report of the Committee on Federal Relations, on the proposed amendment to the Constitution of the United States, was up, the question being on the substitution of the report of the minority of the Committee which recommends the adoption of the amendment with an explanatory resolution for that of the majority the latter recommending the reference of the amendment to the next Legislature. After two hours' debate on the amendment to the amendment, in the shape of a resolution as follows:

Resolved, That the Legislature of Massachusetts earnestly request Congress to propose to the States an amendment to the Federal Constitution prohibiting the unlawful abridgement of any citizen on account of color.

This amendment was rejected by a vote of 141 to 58, which gives a pretty fair idea of what will be the result when the question on the adoption of the amendment comes up.

The New York *Tribune* correspondence from Crete confirms the news that the Turks had virtually abandoned the larger portion of the Island, and are not expected to be able to renew the war. The result of the latest engagements are favorable to the Cretans. In the meantime a new Ministry has been appointed, in Constantinople which is favorable to reform.

The building used as the planing mill of Everett & Co., and the furniture establishment of George W. Staff, 3rd, South Boston, were partially destroyed by fire yesterday. Loss 20,000, partially insured.

The deaths in New York in the week, numbered three hundred and eighty-five.

THE BUTLER COUNTY HOMICIDE.

Trial of John B. Adlington for the Murder of Sidney E. Cunningham and James H. Teeples, at Portersville.

MONDAY MORNING, March 11th, 9 o'clock. The prisoner was brought into Court by the Sheriff.

W. H. H. Riddle, Esq., District Attorney, proceeded to open the case for the Commonwealth. He said scarce ten weeks had passed since this terrible crime had shocked the community. Two men had been hurried into eternity. The scene of the murder was in the village of Portersville, a place peaceable heretofore, was made the theatre of a cruel and bloody double murder. A few of the citizens had assembled to have an agreeable evening party or ball. While engaged in the festivities, the hand of an assassin had, without provocation, struck down two men in the full vigor of their manhood. Perhaps it is my more particular province to relate the facts which we expect to prove. He then read the definition of the crime of murder. It is the taking of life with malice afore-thought. Also read the definition of the crimes, as laid down in the acts of Assembly—both first and second degrees. But they had chosen to indict for murder in the first degree; therefore the jury must either convict or acquit on that charge alone. He then went on to recapitulate what the prosecution expected to prove; but which, as it will be developed by the witnesses, is unnecessary to recapitulate here.

THE TESTIMONY.

James Fleming, sworn—I live in Wortemburg, Lawrence county; I was acquainted with Sidney E. Cunningham, he lived in the same place; he was about twenty-eight years old; he had lived in Lawrence county about two years; he was an engineer, employed at an oil well; Friday night previous to his death was the last time I saw him in life; he was in good health; next saw him in Portersville, on Christmas morning at Oliver's tavern, laid out dead; I saw the cut in his clothes—the blood—and the wounds on his body on the left side; one about the third rib on the upper lower down; he was buried at the village of Pumpkin town, at the Carmichie Church, in Lawrence county.

Cross-examined—I am a physician and surgeon; live in Portersville; I was called, on the night of the 24th of December, about midnight; by Sidney Oliver; said he wished me to come over there; that they had had a fuss, and that John Oliver, I understood, was hurt and some of them; shortly after I received the order and told them to come in; I dressed myself and went over, and found the man that has been murdered, Sidney Cunningham, lying dead on the floor in the hall at the right side of the door; felt his pulse and found him dangerously injured in some way; I went into the parlor; found another man on the left of the door in the parlor, on the floor, nearly in a state of insensibility; he was since identified as J. H. Teeple; some one invited me up stairs to see John Oliver; can't state who invited me up, found him in bed; Dr. Johnston above me; I think there were two or three persons washing the blood of his head and face; Mrs. Adlington was one of them; think I found John said he thought he was not much hurt; wished me to go down and attend to the others; thought he was dying; told him I thought he was; I went down and had them bring Cunningham into the parlor and lay him on the carpet; think I found John Adlington, the defendant, brought him in; they removed his clothes sufficiently to find where the wounds were; I found one [Mrs. Adlington found the nature of the wounds.] The man was in a dying condition with occult hemorrhage; the doctor asked him if he was aware that he was dying; he acknowledged he was so; he did not speak; asked him if he knew who had done it; John B. Adlington, the defendant, brought him in; they removed his clothes sufficiently to find where

The Pittsburgh Gazette.

WEDNESDAY, MARCH 13, 1867.

THE nomination of Col. Stewart was withdrawn from the Senate, by the President, through the influence of Messrs. Lowry and Wewer.

THE organization of the Republican party throughout the Southern States is rapidly going forward. Both blacks and whites participate. Even in South Carolina the movement is begun.

GENERAL CAMERON stands credieted with the pledge to allow no presidential nominee to be confirmed, if he can help it, who is not a genuine Republican. It is very much like the General to make that pledge, and, having taken the position, it will be like him to maintain it.

"Every offence committed by a member of the Republican party, either against its organization or its principles, or, when acting in a representative capacity, against the wishes of his constituents, or in the interest of the common enemy, or in any way to bring discredit upon himself or his political friends, deserves exposure and defeat."—*Press.*

This is sound doctrine. In accordance with it the Republicans of this Commonwealth have an account to settle with certain members of the State Senate, who are conspicuous for participation in that embodiment of treachery and fraud known, by courtesy, as the Free Railroad bill. Some of those gentlemen have aspirations after higher positions than they now fill, and are putting out their "feelers" in search of means whereby to ascend. They may as well understand now that they have been weighed in balances and found wanting. No matter what Legislative Caucuses may decree in their behalf, their ambitions are doomed to disappointment. The wrath of an outraged people will be sure to overtake them.

ON SATURDAY last we condemned pretty roundly the so-called Free Railroad bill. So far we have nothing to take back. The more we think upon it, the more censurable does that bill appear, and the more are we disposed to denounce the Senators who were instrumental in giving it the peculiar shape it assumed. But we charged all Senators who voted for that bill, while professing to be friends of Freedom in Railroad building, with fraud and hypocrisy. That is "steeper" than, upon consideration, we are disposed to put it. Some Senators, doubtless, voted for the bill, who labored earnestly so to amend it as to make it what it ought to be. These should have voted square against it.

That we may do no injustice, we here state that the bill was originally prepared by Mr. Bigham; that the alterations which made it offensive were fastened on it by the Railroad Committee; that in Committee of the Whole all these alterations were voted against by Billingfelt, Brown of Mercer, Cowles, Davis, Bigham, Graham, Lowry, Taylor, Wallace, White and Hall. Afterwards, in the Senate, the same Senators remained true. So far, therefore, as our remarks tended to disparage either of those gentlemen they are withdrawn.

REPUDIATION.

General HALPINE, in his journal, the New York *Citizen*, narrates a conversation recently held with President JOHNSON, in which that functionary drew a parallel between the exploded and overthrown slaveholding aristocracy of the South, and what he characterized as the new bondholding aristocracy of the North. These two he conceived as representing about equal amounts of money capital, and as alike aspiring to the control of the Government through their peculiar investments. Of the two, he certainly entertains the most hearty dislike of the bondholders. This is natural. The slaveholders, as such, have passed away. Their power is broken, and their glory departed. Instead of exulting in their strength—putting up this man and pulling down that one—they are baffled and vanquished. In the days of their prosperity they despised Mr. JOHNSON, because of his humble origin, and a taint of vulgarity he had not contrived to outgrow. Now, they treat him with a special obsequiousness, which is the result of changed relations. His vanity is gratified thereby, and his feelings soften towards them. He regards it as a personal triumph that these men, once so haughty and arrogant in their demeanor towards him, are now constrained to burn incense before him, and acknowledge him as a sort of benefactor. The bondholders he has no power over. Men of uncommon natural force and self-reliance, they have grappled with practical affairs of the greatest magnitude, and compelled success. Keen, sagacious, indomitable, they have so engineered the vast business interests of the country as to challenge the admiration of the civilized world. They are conscious that whatever ability may be actually employed in directing the various departments of civic and military administration, they possess vastly more ability, and, in the main, of a higher and better order; that whatever concessions may be made of skill, courage, breadth of comprehension, mastery of details, swiftness of analysis, and fertility of expedients, in managing governmental concerns, more of all these qualities and endowments are requisite to conduct the varied and weighty concerns in which they are individually embarked. They know their power and therefore neither fawn nor flatter.

The President, in a hypothetical way threatens them. He predicts that inquiry will ultimately be made as to how much they paid for the national securities, taking gold as the measure of computation, and that payment will be made on that basis, and no other. This may be called a delicate way of advocating Repudiation; which is an infamy the people of this country will be slow to accept, no matter by what specious pretexts excused or justified. Plausible reasons for bad deeds are common enough. Look up and down through History, and it will be seen that all the great national transgressions, which stand pilloried for execration to all coming time, were perpetrated under professions of excellent intentions, and to promote the best conceivable objects. It is possible some or all of the actors in these enormities deceived themselves; but they deceived nobody else. However temporary excitements may mislead the judgments of those who are immediately under their domination, they produce little or no effect on those who by self-poise or distance of time or space keep clear of the contagion.

But, it is worthy of remark that the President is not alone, in this covert plea for Repudiation. At the West and Northwest, just now, many Republicans are beguiled by foolish and mischievous notions, this very one among others. They insist that the national bonds shall not be paid according to the faces of them, but according to the value in gold that the government realized.

When the war broke out the people of the West and Northwest were over head in debt. The property they held was insufficient to pay their obligations. Paper money and inflated prices did a clever job for them. Debts, reaching an aggregate of hundreds of millions, contracted on the gold basis, were paid off in paper, while gold was above two hundred. A large part of the loss fell on capitalists, merchants and manufacturers at the East. We discover no evidences that the men of the West and Northwest are conscience-stricken over the gains they made in this way. Not one of them, so far as we are informed, has come forward, offering to adjust his old liabilities according to the gold standard. But, with almost one consent, they insist the creditors of the government shall be paid, not according to the terms of the obligations they hold, but according to the proportion those obligations held to gold when issued. Having reaped one harvest by the inflation, they want to make another by its subsidence. Not having the cheek, or not deeming it prudent, to avow bluntly what they mean, they coin smooth and deceitful phrases in the hope of concealing the shameful design.

But whenever or by whomsoever this or any other scheme of Repudiation may be advocated, it will not succeed. The national debt was contracted in good faith, and will be paid without equivocation or abatement.

PRESIDENT JOHNSON evidently feels heartily ashamed of himself for his conduct in turning out from office, men who were opposed to his opinions. He has just nominated, and the Senate has confirmed, C. H. Hopkins, of Utica, and E. H. Shelley, of Rome, New York, as postmasters of their respective places. Both had been removed from the same offices last summer, but the Senate refused to confirm their successors, and hence their re-appointment.

AN "impeachment meeting" has been held at Pottsville, Pa., to sustain and urge the proposed action of Congress impeaching the President. Pottsville had better let Congress alone. The members of that august body know best what to do under the present aspect of affairs.

COE'S DYSPEPSIA CURE is prepared by the originator of the justly celebrated Coe's Cough Balsam. We have never prepared a medicinal article for public and general use but what has stood the strongest tests, and has always borne the palm of victory over every disease it has been certified to cure. Will you who are suffering from dyspepsia, indigestion, nausea, sick headache, cholera morbus, dysentery, and general debility of the whole system, try but a single bottle? We will never urge you again if we fail in this case. Our own knowledge of its merits the united testimony of all who have ever tried it, the encomiums of hundreds of our own neighbors, your duty to yourself, and the beneficial result, as certain as possible, all urgently, persistently urge you to try just one bottle. If what we say is not correct—if our statements concerning its wonderful virtues are not found to be true—if you can honestly say that the operation of the medicine is instantaneous and perfectly wound-ful—we will renounce our profession as deceivers of the public heath, and retire from the field, admitting that we are incompetent to compound a medicinal preparation which could be entitled to your confidence.

HABITUAL CONSTIPATION.

HOW TO EFFECT A CERTAIN AND PERMANENT CURE.—Some occupations of life predispose to Costiveness, especially those which allow but little exercise. Persons who contract this unfortunate habit of body, under such circumstances, might possibly be relieved by changing their sedentary employments for others of a more active kind; but this is by no means certain. Habitual constipation is a very obstinate disorder. All the ordinary so-called remedies invariably aggravate it. Nothing can be more injurious than the continued use of strong aperients. They at first irritate, and finally almost destroy the bowels, rendering them so torpid that enormous doses of cathartic medicine have no effect upon them. A mild aperient, combined with a gentle stimulant, is the true remedy; and a combination in the happiest proportion, of these ingredients, is found in HOSTETTER'S STOMACH BITTERS. This famous Stomachic invigorates the whole intestinal canal, while gently removing from its convolutions all impediments to a free passage through them. No more purgative has title double operation. No ordinary stimulant effects the desired object. Cases of Constipation abandoned as hopeless by distinguished medical men have been cured in a few weeks by the Bitters. To those who have tried all the medicines on the dispensary in vain, we say, try this irresistible stimulant and aperient. There is no sufficient reason why Constipation should be the consequence of sedentary habits. HOSTETTER'S BITTERS, by supplying the vigor which would otherwise be derived from exercise, will in all cases enable the system to perform its excretory functions regularly and healthfully.

THE HONEY OF WHITE PINE.

With that indomitable Yankee skill and genius peculiar to the people of New England, and worthy of the instinct of the honey-bee only, Dr. GEORGE W. SWETT, of Boston, has compounded a medicine out of the sweet inside bark of the white pine tree, which has a wide reputation in a large variety of diseases of the bladder and kidneys, and mucuous surfaces and membranes generally, called "WHITE PINE COMPOUND."

Dr. SWETT says that it is sweet and palatable, and is readily taken both by children and adults, and was originally known to the aboriginies, who so named the forests of those states, and used it in a variety of diseases, especially those of scorbutic character. It is a sure cure for DIABETES, GRAVEL, ENURESIS, BLOODY AND MUCOUS URINE, and the troublesome malady known as albuminures, or Bright's disease. Those who have tried in vain the various Buchus and diuretics, will find in Poland's White Pine Compound a remedy of superior efficacy and power.

NEW ADVERTISEMENTS.

THE VERY BEST WATCH
IS MADE BY THE
American Watch Company,
OF WALTHAM, MASS.

We claim, and are prepared to prove, that the American Watches, manufactured at Waltham, Massachusetts, are not only equal, but far superior, to the watches of England, Switzerland, and France. We also claim that they are CHEAPER, MORE ACCURATE, MORE DURABLE, and more easily kept in order and repaired than any other watches in the market.

Because in each one of the very numerous parts of which a watch is made up, we attain, by mechanical power, nearly *absolute* mathematical precision and uniformity, making every watch of any one style a true copy of its model.

This similarity in structure reduces the cost of production; it secures uniformity in results; *infallibly* perpetuates any excellence that may be once achieved, and makes it easy to repair any injury sustained, or replace any part that may be lost or destroyed.

In addition to the mechanical advantages our Watches are simpler in structure, and therefore stronger, and less likely to be injured than foreign watches.

How they run under the hardest trial watches can have, is shown by the following letters:

PENNA. RAILROAD COMPANY.
OFFICE OF THE GENERAL SUPERINTENDENT, ALTOONA, PA., 15th Dec. 1866.

Gentlemen:—The watches manufactured by you have been in use on this railroad for several years by our engineemen to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.
AMERICAN WATCH CO., WALTHAM.

NEW YORK CENTRAL RAILROAD,
LOCOMOTIVE DEPARTMENT, WEST. DIVISION, ROCHESTER, Dec. 25, 1866.

Gentlemen:—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham watches are the most satisfactory on any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to engineers and conductors. In my opinion it would greatly tend to promote regularity and safety. Yours respectfully,
CHAS. WILSON, G. Chief Engineer,
Brotherhood of Locomotive Engineers.

The Pittsburgh Gazette.

WEDNESDAY, MARCH 13, 1867.

Hydrophobia—Smothering a Child to Death.

The Detroit *Union* furnishes the details of a most heart-rendering case of hydrophobia in that vicinity. It says: A short time since a daughter of Alfred Woodruff, who resides in the town of Greenfield, about seven miles from the city, was slightly bitten by a dog, and for a day or two complained of the pain caused simply by the bite. The sore partially healed over, however, and no more attention was paid to the matter. In a short time, however, the virus which had been communicated by the dog to her system, commenced its deadly work, and the poor suffering child became raving mad. Her cries were heart-rending, and her appeals for death, for anything to end her torture, frightful.

Everthing that science and skill could do, was done for the little one, but there she lay upon her bed of anguish, bound with cords, suffering what no human pen can describe, yet evincing in her madness a desire to injure even those who loved her best. Her sufferings were too much for human forbearance, her agonies so great to allow even her fond parents to witness it, and the question arose, how shall this be ended? After a long and painful consultation, the conclusion was arrived at that the best and most humane course to pursue was to put an end to the poor sufferers life. Who can picture the feelings of the dear little one's friends as the announcement was made that she must die! Who can imagine the rejoicing of the soul of the poor one, to be released from a worn and tortured body! The only effectual and easiest means of ending her trials was decided to be suffocation and while she was in one of her worst paroxysms, she was seized and smothered to death. Though to some this may seem harsh and cruel, yet in our estimation it was a far better course than to allow the little one to live in pain, anguish, and agony for a few short hours, suffering even the pains and anguish of untold hells, and at last die in misery.

The Mansfield Reformation.

The Columbus *Journal* says: We publish-ed, on Saturday morning, in our news column, some particulars of the efforts making in Mansfield to clear the town of thieves, robbers, confidence men, and rascals generally. We have since received from a correspondent some further facts. He says that a secret band of "regulators" has been former, in addition to the vigilance committee, which consists of 300 citizens. This band visited the dens of the city, and in the wrest, and the low dives and scoundrels were taken into Miller's Hall, where the indignant masses could see and recognize them hereafter. They were then sent out of the city, and warned not to return. The resident thieves and pickpockets have also been notified to leave within twenty-four hours. He adds: "The citizens have taken hold of this matter with a fixed determination of ridding the town of this class of people, for we have perfected the organization and intend to carry out the provisions for which it was organized to the letter."

Our correspondent says that their city had been infested by these rascals for weeks, and that the inability of the police to deal with them, left the citizens no other means of safety than the adoption of the sternest measures.

More of It.

Escapes from the Columbus City Prison are becoming an every day matter. The "local" of the *Journal* of that city waxes facetious over them and says: From the Local editor's stand point, the City Prison is the most accommodating affair in town. An escape from prison is always sensational, and an escape from our City Prison is now considered as a regularly established performance, played once a week or oftener, if occasion demands, for the benefit of local writers. On Friday night four more prisoners escaped from the chain gang room, some careless man having kicked out the filling of the brick made on last Monday night, and left it loose. On Thursday, Riley, one of the men arrested for stealing ten dollars from a saloon on West Broad street, and four others are supposed to have tumbled miscellaneously out of the opening, the several others preferring to remain. None of them were recognized. From the general stand point, were we standing there, we should advocate the appointment of a night watch for the prison. As a local editor, however, we are decidedly opposed to any such innovation.

The Nicholson Pavement.

The block of Nicholson pavement on North Broad street has proved such a success that the citizens in that vicinity contemplate its general introduction on the street. It is indeed a great improvement, and although new hereabouts, is well established in San Francisco, St. Louis, Detroit, Toledo, and other Western cities. In Chicago it is one of the great attractions. The *Tribune* of that city says: "Nineteen streets and parts of streets are to be paved with this *the finest pavement in the world*. And in a recent letter, J. K. Thompson, Esq., superintendent of public works, Chicago, thus writes: 'After a trial of about two years, we are so well pleased with the pavement that we *put down no other kind*. We think it quite as economical as the stone pavement; much easier to keep in repair; easier to keep clean; less injurious to horses and vehicles, and at the same time comparatively noiseless.'" Mayor Thomas of St. Louis writes that there it is thought "the most durable pavement we can use. While I remain in office I shall do what I can to have it continued."

What about the movement for its experimental introduction in Pittsburgh?

Ristori in the Family.

Ristori is coming, and everybody is on the *qui vive* to learn everything possible concerning her. We clip the following from the New Orleans *Picayune* respecting her domestic habits: "It is this wonderful industry that characterizes Ristori, and is her true greatness in all the scenes of life. She carries her cook with her, and herself superintends the preparation of all her meals. She arranges the economy of her own household, like any other good mother. She watches like a mother, over her son and daughter, and, like a good wife, loves her husband. She personally attends to the wants of her servants, and sees that they are well fed and lodged. When she travels abroad she packs her own trunks, theatrical dresses, and all, superintends the packing of her children's trunks. She likes, above all things, to have her own house. If she can help it, she will not always does have it. She if fond of domestic life, its quietude, its honesty, its purity, and, though very fond of society, desires to be the mistress of her own household."

Larceny of Tobacco.

Officer A. J. Moon, of the Mayor's police, yesterday morning arrested a laboring man named Marioch, charged with stealing a box of tobacco from the steamboat Tim Reese. The charge was made by John Hamilton, second mate of the boat. It is alleged that the defendant, who was employed for the time being on the boat, secreted the tobacco box which was among the freight. The prisoner asserts that another man who was employed in moving the freight threw the box down to him, saying that it was in the way, and he picked it up and set it to one side. A hearing was had and the prisoner, in default of three hundred dollars bail, was committed to jail to await trial at Court.

Runaway.—At about six o'clock on Monday night a horse attached to a buggy, on Anderson street, took fright and ran rapidly down the street. At the corner of Locock street, the buggy upset and the occupants, two little boys, one apparently about ten and the other five years old, were thrown violently to the ground. The children were picked up and found to be severely hurt. We could not ascertain their names. The horse continued on down the street, and was not caught until he had run a considerable distance. The buggy was completely demolished.

A Sam Patch.—On Monday evening Mrs. Honora Healy, residing in Pipetown, came before Alderman Lynch and made information against Joseph Cahill, a tailor, who during the months of June and July, 1865, ran up a bill of $30,70 at the deponent's grocery, on High street. The plaintiff alleges that the secured took his measure and was to make him the nicest kind of an overcoat, and it was in the full belief that this overcoat was being made, that the grocery was trusted to the faithless tailor. Eventually it turned out that the coat had not been commenced, nor has it been commenced yet. A warrant for the debtor's arrest was issued.

Finally Committed.—Michael Seall, charged by Patrick Magee with the larceny of a revolver, was finally hearing before Alderman Taylor yesterday, and in default of bail was committed to jail to answer at Court. It will be remembered that a charge of burglary against Seall, preferred by officer Oxen, is pending before the Deputy Mayor, and is to have a hearing to-day. Seall is charged with entering Patrick Magee's tavern and taking, among other things, the revolver mentioned.

COURT REPORTS.

Oyer and Terminer, &c.

Before Hon. James P. Sterrett.

The following comprised the business of the forenoon session of Tuesday:

The jury in the case of Peter Suter, indicted for assault and battery, on oath of A. W. Holthouse, found a verdict of guilty, and the defendant was sentenced to pay a fine of twenty-five dollars and the costs.

A fine of the same amount was imposed upon Samuel Black, who pleaded guilty to an indictment charging him with having committed an assault and battery upon Patrick Lemon. He was also held in $500 to keep the peace for one year.

George Dickson *alias* Deisinger, accused of the larceny of a horse-blanket and buffalo robe from Lockhart & Frew, was found guilty and remanded for sentence.

Michael Scahill and Patrick Ferry, indicted for assault and battery, were convicted and sentenced to pay a fine of fifteen dollars and the costs.

Abe Reed, colored, pleaded guilty to an indictment for aggravated assault and battery. Alexander Hall prosecutor, and was sentenced to three years imprisonment in the penitentiary.

Ann Gallagher, for selling liquor without license, was fined ten dollars and costs.

Charles Coats, colored, indicted for the larceny of a pair of pecans, from Daniel Dennis, roadmaster P. & C. & K. R., was convicted and remanded for sentence.

A TEUTONIC CASE.

Alexander Coste was arraigned upon an indictment charging him with having committed an assault and battery, on the 25th of February last, upon Benno Mesdag, at Kolbeckorf's lager beer saloon, Smithfield street. The defendant is a German theatre acter, and the prosecutor attached to the editorial staff of the *Volksblatt* newspaper. It seems that an article appeared in the *Volksblatt* referring to the defendant, at which he became incensed, and meeting the prosecutor, the author of the article, took "satisfaction" and the law in his own hands, by assaulting and beating him, depriving him of the full use of his eyes for several days. The fact of the assault and battery was admitted, but the counsel for the defense, A. Weidman Esq., with much "sound and fury" proclaimed that it was justifiable under the provocation. When evidence as to the provocation was offered, the Court refused to receive it, saying (shall we say with intended "sarkasm") that Mr. Weidman knew too much law to seriously insist upon such an offer. And when Mr. W. was addressing the jury, in justification of the violence used by defendant, the Court interrupted him, remarking that it was not his province to argue the question of law to the jury, and that as he seemed to admit all that the prosecution claimed, he had nothing further to say. Should we attempt a pen picture of Mr. Weidman during the trial of the case, and the law as laid down by him be applied, the court reporter might suffer and seek redress in vain. J. J. Scibeneck, Esq., was the counsel for the prosecution, and said he was provoked to say what he did, having intended to submit the case without argument, in rep y to abusive, unsignified and uncalled for language (he styled it oblingate) used by the opposing counsel. The jury found a verdict of guilty. Before passing sentence the Court desired to know the character of the alleged libelous article in the *Volksblatt*. Mr. Leibeneck interpreted the article, and it appeared that in criticising Mr. Coste's representation of a certain character, in the German Theatre, the critic for characterized his delivery as senseless, his demeanor arrogant, and expressed the opinion that he was not the man for his calling, and that he would make a much better night-watchman than Theatre acter. The Court sentenced Mr. Coste to pay a fine of thirty dollars and the costs.

MCCLURE TOWNSHIP CASE:

Terence Brady was arraigned on a charge of aggravated assault and battery, on oath of John Kelly. On the evening of the 14th of January the parties, with others, were at Hussey's tavern, in McClure township, where a difficulty occurred between Brady and a man named John Madden. They were separated and put out of the tavern, and outside, after a little time, they renewed the quarrel, when Kelly and others interfered. Brady approached Kelly, and with the remark, "I'll fix you," or words to that effect, stabbed him in the right side, about the first rib, inflicting a wound an inch and a half in length, but not of any considerable depth or of a very serious nature, evidently inflicted with an ordinary penknife. It appeared that there was a regular Bully-Boan row, in which the principal participants were Brady and Madden. After the first demonstration in the bar-room, where Brady was down on the floor, and some one on top of him, there was a renewal of the fight outside, Brady being again put down, and kicked while down, and it was during what occurred on the outside that the cutting was done, Kelly, the prosecutor, having participated only as a peacemaker in endeavoring to separate the combatants. He alone testified positively as to the cutting by Brady, and the counsel for the defense characterized him as a "swift witness." The knife was not produced, although it was in evidence that it had passed into the hands of the magistrate. The case was on trial at adjournment.

Application for Special Bail.

Application for special bail was made yesterday morning before His Honor Judge Hampton, in an action for defamatory words, in the case of Rudolph Druesewood, against Lewis Hilke, by Messrs. Kirkpatrick and Melion, attorneys for plaintiff. The plaintiff, who is foreman at the Ardesco Oil Works, in McClure township, in his affidavit, alleges that the defendant (Hilke) charged him with larceny to James O'Hara, Esq., the President, and Charles Wormacastle, the Secretary of the Company, and others, the larceny consisting in selling three feet of some material, and appropriating the money to his own use. The Court, in view of the circumstances of the case, fixed the bail at one thousand dollars, the amount fixed by rule of Court, without special allowance of Court, being three hundred dollars. A capias for the defendant was issued and placed in the hands of the Sheriff.

Our County Records.

Without intending to reflect upon any persons, except those who have the power to mend the matter, we cannot but suggest that something should be done to put some of the earlier of our county records in a better shape than they are at present. The earlier books and plans are in shameful condition, ready to fall to pieces almost at a touch, and rendering any use of them exceedingly difficult and unpleasant. Evidencing as they do a large number of the titles in the county, they should certainly be re-copied at once by competent hands, and rebound, and we cannot too earnestly call the attention of the proper authorities to this matter. There is an old adage, and a true one, that "a stitch in time saves nine."

Special Injunction Allowed.

A special injunction was yesterday allowed by Judge Mellon, of the Court of Common Pleas, in a proceeding in equity between Paul J. Caperton and J. C. Klett. The complainant, Caperton, sought an interference of the Court to compel the defendant, Klett, to remove the obstruction placed by him over a large window used by complainant for the purpose of light and ventilation in his well known restaurant, on the corner of Penn and St. Clair streets. Upon affidavits filed, and after argument, an injunction was allowed as asked for by complainant. Messrs. Kirkpatrick and Melion for complainant, and Messrs. Bayne and Shaeffer for respondent.

Common Pleas Court.

Before Hon. E. H. Stowe.

D. H. Lewis vs. J. M'Govern and James Rees. Before reported. This case went to the jury, but no verdict had been rendered at adjournment.

Daniel Sweeny vs. N. J. Bigley. Before reported. This case occupied the entire session on Tuesday, and at adjournment the evidence had not been concluded, the plaintiff having some rebutting testimony to offer.

A Hard Case.

The extraordinary spectacle was witnessed yesterday at Alderman Strain's office of a boy, fourteen years old, instituting a suit against his father for adultery. Ernest Albert Hallowell, who has resided with his father at Minersville, made information before the magistrate mentioned, alleging that his father, Thomas Hallowell, has been for some time past living in adultery with a woman named Sarah Hewitt. The boy states that some months ago his father deserted his wife, who is still living in England, and fled with the woman Hewitt and his two children, Ernest being the youngest, to this country. They have been living as a lawful family at Minersville. The woman, as he states, took a strong dislike to Ernest, and at last drove him away from the house. He then came and made the statement given above. In addition to the first information he also made one against Sarah Hewitt for fornication. The accused were arrested and held for a hearing on Tuesday next. Sarah Hewitt instituted a cross-suit for surety of the peace against Ernest. The boy being wholly without friends, was committed to jail for a further hearing, but an active effort is being made to secure his release, by those who have become interested in him. If his story be true the heaviest weight of the law should fall upon those whom he accuses.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, March 12, 1867.

The following are the New York stock quotations for to-day: Gold, 134¼; 1881 bonds, 109; Five Twenties, old, 105¼; Five Twenties, '65, 107¼; do new, 106½; Seven Thirties, 105¾. Michigan Southern Railroad, 72¾; Cleveland and Pittsburgh, 82; Pittsburgh, Fort Wayne & Chicago, 95½; Erie, 60¾; Chicago and Northwestern, 35½; do preferred, 63¾; New York Central, 103; Chicago and Rock Island, 95½; Gregory, 12¾; Quartz Mill, 4¼; Corydon, 6¾; Smith & Parmelle, 6¾.

—The contraction law prohibits the withdrawal of more than four millions of greenbacks in one month. Mr. McCulloch in February took in more than five millions, but in January the greenbacks were increased or eased one million, and the extra million was withdrawn in February on that account. The average is the same, and the spirit of the law has been maintained, though the action of the Secretary provokes comment.

—The Secretary of the Treasury, in answer to an inquiry of the House, says that the gross proceeds of the sales of cotton by the Government amounted to nearly $20,500,000, and the proceeds from the sale of miscellaneous abondoned property to $1,750,561. The total receipts from these sources were nearly $23,000,000, and the net profit of the United States $22,000,000.

—The monthly summary of the movements of leading articles of produce at the port of New York for the months of January and February, as compared with corresponding time last year, shows a relative increase in receipts, except in corn and oats. Flour, corn meal and wheat show a very decided gain. The same is true of pork, beef, cut meats, butter, cheese, lard and whisky. Petroleum has fallen off about 60 per cent in the two months—last year's receipts, though it is more than double the receipts in the same time in 1863. The exports show a falling off in Flour and Wheat, but a gain in many other particulars. The movement at the opening of last year was small, and thus the present shows a relative improvement, while it is still insufficient to make a satisfactory market. The shipments of barley, corn and peas, all sorts of oils and provisions, tallow and tobacco, aggregate a very large increase, while petroleum and naval stores fell off considerably. It is the common opinion that the depression in home trade must continue until prices descend a point where it will pay to export to foreign ports. This might be done to the great advantage of the producers except for the working of that legislation which forbids a corresponding reduction in the cost of production. This lesson will be clearly taught, but it must be learned at last.

—At the time of the recent failures at Boston some doubt was expressed as to whether certain gold certificates mixed up with the failures had been come by honestly. We learn that they might have been stolen from the Sub-Treasury it is now known was not true. They had been purchased in New York, and had never been in the Boston Sub-Treasury before. A loan on this certificates was made to the amount of $500,000 (on $100,000 gold—125 currency for 100 gold) and another loan was also had, making the total $600,000. By some little financering some six or seven hundred thousand dollars of Mellon, Ward & Co's. paper, which the cashier or the Boston Sub-Treasury had been carrying, was adroitly shifted on to the State Bank, and so managed that the latter was left without any security whatever. Of this, $600,000 was put upon the Merchants Bank in the shape of sight certificates "good" by the Cashier of the State, but since repudiated by the directors. The Second National (Granite) Bank took $125,000 of "certifies" checks, the Mount Vernan $50,000, and the Bank of Newton some $200,000, or $50,000 more than its capital stock. These are the results of skillful financiering on modern banking—*Phila. Ledger.*

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, March 12, 1867.

There are no new features in the produce markets worthy of special notice, with the exception that the inclemency of the weather is retarding out-door operations, and to some extent, restricting business generally.

GRAIN—We can report a sale of 2500 bush No. 1 Spring Wheat at $2,00—sold to one of our city mills. Barley is in limited supply, and No. 1 Spring sells readily at at $1. Sale of 57 and 36 lbs 62½c, sold at $1.37. Oats steady, with regular sales in store at 52 to 53. Corn is quiet and unchanged.

FLOUR—Is steady with fair retail demand but unchanged. We continue to quote at $12 to $12,50 for good to choice Spring Wheat brands; $13,50 to $14,50 for Winter Wheat, and $16 to $17 for fancy brands. Rye Flour, $7 to $7,25, and Buckwheat at $6,50 per bbl.

PROVISIONS—Bacon is a shade firmer, and we now quote at 16 for Shoulders, 17½ for Ribbed Sides, and 15 for Sugar Cured Hams. Lard 12½ to 13, and Mess Pork, $21 to $21 50.

SEEDS—There is an improved demand for Clover seed; sale of 20 bus at $5,50—small sales at 49. Timothy Seed is selling at $3 to $3,25. Flaxseed is wanted at $2,85, and but little offering.

BUTTER—Continues quiet and unchanged, with a supply fully up to the demand. We can report regular sales of Roll at 25 to 28, for good to choice.

EGGS—In rather better demand, and a shade easier but unchanged, fresh packed still commanding 22.

HAY—Prime Hay is in better demand and higher, while inferior and common is almost unsaleable. The former may be quoted at $23 to $24, on track and wharf.

HOPS—The market is firmer, owing to report of light stocks, and holders are disposed to ask, and hold for an advance. Sales of eastern at 60c to 65c, and 70c for choice.

POTATOES—Continue dull but unchanged; regular sales in store at 75 to 80 per bushel, for prime Peach Blows.

APPLES—Dull but unchanged. Regular sales in store at $3 to $3,50 for good to prime, and $4 for choice.

DRIED FRUIT—Continues dull, with a supply considerable in excess of the demand. Small sales at 9c to 10 for Apples, and 15 to 20 for Peaches. A round lot could doubtless be bought below the above quotations.

OIL—Lard is in rather better demand but unchanged. We continue to quote at $9 50 to 10 for No. 2, and $1,10 for No. 1.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, March 12, 1867.

CRUDE—The Crude market was again quite active to-day, the sales, in the aggregate, reaching upwards of *thirty-three thousand barrels*, mostly for future delivery, and, as will be seen, a considerable amount of which is reported on private terms. One party reported sold 15,000 bbls for March, April and May delivery, on private terms; 3000 on the spot at 6, 3000 to arrive, at about 5¾; more or less—supposed to be a little more; 1000 on the spot at 6; 2500 to be delivered between the 1st of April and 1st of May, sellers option, at 6, 3,000 to arrive, at 6¼; 600 on the spot, at 6¼; 155 at 6; 230 and 115 at 11½ packages included, and 1250 bbls in lots, bought for shipment—average price, 6¼. Late advices from Oil City report the market weak and drooping—sales reported at $1,75 to $1,80—cheap enough in all conscience.

REFINED—It is an old saying and a true one, too, that a storm is always followed by a calm. Yesterday we had sales of over fifteen thousand barrels of bonded oil reported, while to-day we have not a single barrel. We can give no cause for this apparently sudden reaction, unless we fall back on the old stereotype phrase, that the "bottom" is again out, and indeed we do not believe that such is the case. It is probable that our refiners have contracted for about all they care about, selling at present prices, and they will hold back in hopes of a strong market and better prices. Free oil is dull and without quotable change.

ARRIVALS—The following arrivals of oil were reported to-day:

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, March 12, 1867.

CATTLE.

The supply of cattle was comparatively light this week, not exceeding seven hundred head, but as there was apparently less inquiry for shipment, the market was only moderately active, some few "odds and ends, being left over unsold. Prices, compared with last week, underwent but little change, good retailing cattle selling at from 7½ to 8c, gross. There was again a very fair demand for stock cattle, one firm alone disposing of nearly one hundred head at from 6 to 6,35. The sales for shipment were very light. Barney Grey, we believe, being the only eastern buyer in attendance, and he bought less than four car loads, though he would probably have taken a larger number if he could have found any more suitable for shipping to New York. The butchers bought about the usual number at the prices above indicated.

SHEEP.

The market was pretty well supplied this week, and as the demand was restricted almost entirely to supplying the wants of the retail trade, prices, if anything, ruled a shade lower. J. Shaw wholesaled 125 head, averaging 91 pounds, to Wm. Reis & Co., at 6¾. Reis & Co. wholesaled 172 head to Pancoast at 5 to 7, as to quality; and retailed 25 head common, at 5,40. Stakely & Co. retailed 50 head, of good Washington county sheep, at 7½ to 8. Elson & Christy retailed 98 head at 6¼ to 7¼. Bowman, retailed 50 head at 6½ to 7.

HOGS.

The demand for this class of stock is confined entirely to supplying the immediate wants of butchers, and, consequently, we have but very operations to record. Endrick & Co. report having retailed about 250 head at 7¼ to 8¼, gross, for fair to good averages, and these may be regarded as the ruling quotations, in a retail way.

REPORTED SALES OF CATTLE.

McCallister & Carr sold 17 head of mixed Ohio cattle at 3½ to 7¼. M. Varner retailed 16 head at 6¼ to 7¾. Black-tock & Hazlewood sold Andy Ackley 16 head of prime Illinois steers at 8½, and retailed 80 head at 6½ to 7¾. Glass & Lafferty retailed 17 head for Heyl at 5 to 7; 19 head for Clark, at 6,30. Barney Grey bought 34 head of extra steers, averaging 1250, from Myers & Needy, at 7¾ to 8; 7 head from Merrick & Doud at 7¾, and 4 head from Shamberg, at 7,30. Marks & Trautman sold in different lots, about 100 head of good stockers at 6 to 6,35; retailed 60 head of good cattle to butchers, at 6¾ to 8. We were unable to get a full report of all the sales, but we have given enough to establish the general tone of the market.

RIVER NEWS.

Our river, under the influence of the recent rains, rose over four feet at this point during the twenty-four hours ending last evening, at which time the Allegheny marks indicated thirteen and a half feet. The weather continues cloudy and unsettled, with every appearance of rain.

The Argosy, from Cincinnati, is the only transient arrival we have to report, while aside from the regular packets, there were no departures. The Maggie Hays was to have left Cincinnati for Pittsburgh yesterday, and if so, she may be expected in on Friday.

The Ida Rees No. 2 left for Oil City last evening, with a fair trip, and the Urilla, we presume, will leave this evening. The Echo has arrived at the landing from the dock, and will commence active operations forthwith.

The Memphis *Post*, of Friday, says: The stern-wheel steamer Armenia arrived last night from Pittsburgh with a great freight trip, among which were 1800 plows, 35 wagons and 300 wheel-barrows. She will depart this afternoon for New Orleans.

The Spray left Louisville for Pittsburgh on last Saturday.

Tom Conover fell off the Chattanooga, at Clarksville Tuesday, and was drowned. He was from Pittsburgh.

The towboat Alps sunk a large load of coal at Pomeroy Thursday. It will prove a total loss.

The Argosy got in from Cincinnati a little ahead of time, with an excellent trip, and she returns again to day at noon, positively. The Argosy has become a kind of an institution in the Pittsburgh and Cincinnati trade, and we are glad to state that usually she has good trips both down and back.

The Glendale, Capt. Hare, with the veteran James Mellon in the office, will positively leave for St. Louis early this afternoon. The Glendale offers superior accommodations for passengers, being both safe, reliable and commodious.

The Savanna, Capt. McGowan, is announced to leave for St. Louis and the Upper Mississippi to-day, and passengers and shippers should bear this in mind. The Sherman, Capt. Baker, is the regular line boat for St. Louis, leaving on Saturday.

The Great Republic, Capt. Donaldson, will positively leave for New Orleans on Saturday, and as we have already stated, she will be open for visitors on Friday. The Messenger, Capt. Jesse Dean, is also up for New Orleans, and the America, Capt. Golding, for Nashville.

The Kate Robinson and Importer were advertised to leave Cincinnati for Pittsburgh on Monday. The tow boat Stella, with twelve barges of coal, passed Louisville on Sunday.

Capt. Dryden telegraphs that "the Richmond is at our wharf ready to get her outfit completed. Saw will be completed by the 8th of April, if it quits raining."

The Louisville *Democrat* is highly delighted to learn that Capt. J. F. Ford is about to remove from New Albany to that city, and adds, "Louisville wants just such go-ahead, enterprising business men to set an example, for she needs manufactures, and needs workingmen to put 'em through.' The *Democrat* is right for once. Louisville is sadly in need of just such men, and when she gets them it will be time enough to think of competing with Pittsburgh in building fine boats, etc., etc.

The New Orleans *Times*, of the 5th, has the following: Yesterday a shooting affray, on the Armadillo, at Pittsburgh boat.

Yesterday morning an affray occurred on the Armadillo, between the porter, a colored man, and the bar-keeper, resulting in the porter being dangerously wounded by the bar-keeper. The former was shot in the abdomen. The wounded man was carried to the Charity Hospital. The names of the parties are known, and the police have thus far obtained no information as to how the difficulty occurred.

The Cincinnati *Commercial*, of Monday says: Last night, when we held an inquest, together with brother Hilker and others, of the German press, we concluded that the river was "on a high," and one and inch above the "high water marks" of the present freshet. Save the people of the south, is our most earnest prayer, &c. Yesterday while, the river was six inches higher than during the late flood.

Owensboro papers report communication entirely cut off by land with the neighboring towns of Hartford and Calhoun, and many portions of the country present the appearance of vast lakes. The bayous on the river roads are covered with wild geese, ducks and other water fowls, and partridges are driven from their coverts of trees. Many singular incidents have occurred. When Mr. John Gore, who has just returned from a flat-boat trip from New Orleans, was sitting by the fire detailing to his wife his "hair breadth escapes by sea and land," the fire place and hearth suddenly vanished into six feet of water, and Mr. Gore only escaped from following after by falling backward on the floor. Several narrow escapes from drowning are reported, but so far we have heard of no loss of life by the present great inundation.

Mr. Hogan, of Missouri, secured in the Omnibus Bill, an appropriation of forty thousand dollars for the removal of wrecks in the Mississippi River, offering us the following brief explanation: "Mr. Chairman—Within the last four months, vessels of the late Confederate States, sunk in the Mississippi River, have been the means of the destruction of three of the finest boats on that river, causing a loss of some eight hundred thousand dollars. These vessels were sunk in time of war, and they have remained there, constituting a permanent obstruction to navigation. I think it devolves upon this Government to take the obstructions from that great river of this Republic. I do not know that forty thousand dollars will remove them, but it will do something toward it. We have suffered, in consequence of these wrecks, not only the loss of property to the amount of eight hundred thousand dollars, but the loss of fifty or sixty lives of American citizens. If our river, which has prepared for it a larger interior trade than, were a seaboard, it could get those estimates for removal of obstructions. But our river, although floating a commerce greater than all of our foreign commerce, seems hitherto to have been ignored by all the gentlemen connected with this service."
